

Instructions

Every community and non-transient non-community water system that has lead, galvanized requiring replacement, or lead status unknown service lines must deliver consumer notification of service line materials to all affected consumers as specified in [§141.85\(e\)](#).

Annually by July 1, the water systems must certify that they complied with the consumer notification of service line materials for the previous calendar year and provide a copy of each notification and information materials they delivered to the State as specified in [§141.90\(e\)\(13\)](#) and [§141.90\(f\)\(4\)](#), respectively.

Submit the completed Certification along with a copy of each final consumer notification of service line materials to your local health department by July 1 for the previous year's compliance with the consumer notification requirements.

Certification
Delivering Consumer Notification of Service Line Materials

Water System Name: _____

Public Water Supply ID #: _____
